The thrill of flying amazing aeroplanes with former Red Arrows and RAF combat trained flying instructors is guaranteed to provide an exhilarating, unforgettable experience. Plus, new for 2010, Ultimate High Air Racing takes first-time flying to a whole new level!

AERONAUTICS

THE AIRCRAFT

The Bulldog is a former military training aircraft used by 10 Air Forces around the world. It offers side by side seating, has mid-level aerobatics capability and is a joy to fly.

THE AERIAL ACTION

All flights are tailored to the individual from gently mild to wildly exciting, so if you are a first time or nervous flyer or the ultimate adrenaline junkie, our aim is to bring you back down to earth with a HUGE smile.

All flights start with an introduction on the effects of controls and how to fly the aeroplane, and then moves onto the especially exciting part....

Aerobatics includes instruction on how to fly aerobatic manoeuvres (loops, rolls, stall turns) with guests being encouraged to try this for themselves. Experienced thrill seekers can take things to the max with some extreme aerobatics.

The **Top Gun** flight is a mission to Shoot The Bandit. Flying in pairs, the objective is to tail-chase around the skies, get the enemy in your sights and score a direct hit! Then swap roles and see if you can avoid those guns.

THE DAY

10:30am

Guests are welcomed to the crew room and sit down for an informative and entertaining pre-flight and safety brief by one of our senior flying instructors.

Guests are kitted out into flying suits and choose their name badge for the day.

11:15am

The flying commences. Waves of guests fly sequentially throughout the day. Guest will rotate between the aerobatics, and ground mapping skills session.

13:00pm

A buffet lunch is served.

4:30pm

At the end of the day "Tea and Medals" can be provided. Guests are presented with their signed Flight Certificates. Speeches and Prizes as required.

5:00pm

Guests depart.

All Day.

Whilst guests are not flying the bulldogs they will be performing mapping and navigation tasks.

ULTIMATE HIGH AIR RACE

Ultimate High offers YOU the opportunity to participate in an air race, competing against the clock and other contestants with little or no flying experience!

After a thorough briefing and a practise flight in the morning where you learn to fly the cutting edge **Extra300 raceplane** and fly tight corners, you will prepare for the big race itself. At the start you will dive down to low level at speeds in excess of 200mph, select 'smoke on' and storm across the start. You will then need to pass through a series of simulated gates at high speed either with your wings exactly level, or at 90 degrees – in 'knife-edge' flight!

No matter what your previous experience, YOU will fly the aeroplane, with an experienced aerobatic and ex-military instructor in the aeroplane with you to make sure that it is safe. Your Air Race time is entirely dependent upon how accurately you fly the aeroplane, and how much “G” you can stand as you pull the raceplane through the turns!

The race is flown 750ft over the airfield with the instructor calling out the turns based on physical features on the ground; gates or pylons are simulated to ensure safety. All instructors are former military pilots with substantial aerobatic instructional experience, and are officially approved display pilots in their own right. All flights are carried out with the UK's leading Advanced Flight Safety training organisation.

PROFILE OF THE DAY

- Group flying and racing brief, including how to fly the aeroplane, how to make tight turns and how to handle “G” forces.
- Guests are kitted out into flying suits and choose their name badge for the day.
- Practice flight in the Extra 300 aircraft (as used in Red Bull Air Racing), being taught how to fly - and how to race! Your flight finishes with a practice run over the course itself.
- Snack Lunch with your pilot, a professional flying instructor, aerobatics and display pilot with many years of experience. Talk race tactics, how to make the aeroplane go faster, and run-through of the race rules and time penalties for errors.
- Tension mounts as you await your turn for.....The Race flight itself!
- The instructor sets the aeroplane up, then you dive from height to storm across the start line for your timed run!
- Once all of the competitors have flown, it's time for the results! Have YOU been the fastest on the day?! All competitors have their time placed on the season scoreboard in the Ultimate High crewroom, with the fastest time of the season winning a free aerobatics trip with a Display Pilot!
- All competitors will be provided with a certificate signed by their pilot, showing their race results. There is also an opportunity to purchase a DVD of the flights.

Your day will include:

- Exclusive use of aircraft
- Experienced instructors
- One aerobatic flight per person
- Tea & coffee on arrival
- Lunch
- XSEM management in attendance

Prices from £410.00 (excl. VAT)

CLIENT TESTIMONIALS

“We have never had feedback for a corporate event like the letters of thanks we have had following this one.” **Shoosmiths Solicitors**

“You have set a new standard for a Corporate day out.” **Leading Private Equity Firm**

“The team were extremely professional and “happy to help” with whatever we requested.” **B&Q**
