Wii Golf – Matchplay

Match Play Format

Suitable for golfers and non golfers, you and your guests will battle it out in a 3 hole, head to head, matchplay competition. The winners will progress through the rounds and ultimately to the final.

How it works - You hold the Wii remote like a golf club and swing the club like a real club. You can select from different clubs: iron, driver, wedge or putter. If you swing too hard, your power bar will turn red, meaning your ball will randomly slice or hook in the air. You can change the direction of your ball before you swing and when there is wind present you must compensate.
